To College Works Painting:

Swank Motion Pictures, Inc., founded in 1937, is a worldwide non-theatrical movie distributor and licensing agent in venues where feature movies are shown outside the home. We are a highly successful business-to-business service organization; therefore, many individuals have not heard our name. **We are the acknowledged leader in the non-theatrical marketplace and are searching for enterprising individuals who will help us strengthen our reach and profitability in diverse market niches.**

Movies help our customers reach their objectives, whether it's to improve patient satisfaction in a hospital, bring students together for safe on-campus gatherings, draw patrons to museums or to entertain passengers on cruise ships, trains or motorcoaches. Our focus is helping the customer find value in showing movies and doing so legally.

While experience is what makes us good at what we do, opportunity is what makes Swank a great place to work. There are career opportunities at many levels for individuals with a vast range of interests, skills and knowledge in the areas of sales, customer service, information technology, marketing, graphic design, accounting and operations.

Our Corporate office is located in St. Louis and we have sales offices in St. Louis, New York, Paris and Berlin. We also operate an International distribution facility near Chicago.

Swank Motion Pictures believes in the College Works Painting program and how it offers students the opportunity to develop skills they would normally not be able to achieve in their college years. **Swank is very interested in interviewing your top interns/employees upon their completion of your program and graduation.**

Swank Motion Pictures, Inc. offers an excellent salary and benefits package to its employees. Please forward prospective candidates to our website at www.swank.com to view our current career opportunities. To be considered for any of our open positions, please have candidates complete the online application found on our website.

Sincerely,

Carrie Buchanan
Director of Human Resources
